Setting ICD Version Utility

There is a new utility that you can use to specify which diagnosis code set each insurance carrier will use.

New Menu Option

On the Tools menu under Services, there is a new option called Set ICD Version. Click this to open the Set ICD Version utility.

You can also open this screen by pressing the S key from this menu.

New Utility

The Set ICD Version utility will show all existing insurance carriers and the current default diagnosis code set for each one. Select which carriers you want to change to ICD-10.

When you are ready, click the Update Selected button to update your settings. You can run this utility as many times as you want.

| Field/Button/Check Box | Description | | | |
|--|--|--|--|--|
| Code Set | Select this check box if you want to make changes for the Code Set for the selected carriers | | | |
| Update the default code set for claims to | Select which code set you want to use to update the selected carriers. | | | |
| ICD 10 Effective Date | Enter the effective date you want to use for the selected carriers. This date marks the day on which this carrier will stop using ICD-9 codes on claims. | | | |
| Use the Icd-9 code set for claims with a date of service prior to: Select this check box if you want to make changes to the ICD-10 Effective | When the code set is ICD-10, claims with a date of service prior to this date will continue to use ICD-9 codes. | | | |
| Date for the selected carriers. | These fields will be disabled if the value in the Update the default code set for claims to field is set to ICD-9. If there was a date in the field, it will be cleared and the field will be disabled. | | | |
| Code | This field shows the Insurance Carrier Code. | | | |
| Name | This field shows the Insurance Carrier Name. | | | |
| Туре | This field shows the type for the insurance carrier. | | | |
| Code Set | This field shows the current default Diagnosis Code Set for the carrier. | | | |
| ICD 10 Effective Date | This field shows the date that ICD-10 codes will be used for the carrier. | | | |
| | This field will be cleared and disabled if you change the code set for the carrier to ICD-9. | | | |
| Select/De-select All | Use this button to select or clear the check | | | |

| | boxes for all carriers, those next to the Code field in the grid. |
|-----------------|---|
| Update Selected | Use this to run the utility after you have made your selections. Depending on your selections, all carriers with the check box selected next to their Code name will have their Code Set and/or Effective dates updated to your selections |
| Close | Use this to close the screen without making any changes. |

Yu cannot change the code set for an insurance carrier whose record is open for edit in the Insurance Carriers screen. You must close the record first.

Create ICD-10 Mapping Utility

1. On the Tools menu in Medisoft V19 and V20, point to Services, and click Create ICD-10 Mappings. The Create ICD-10 Codes utility opens. Be sure to read the information on the first tab. The second and third tabs show you: • 1:1 Mappings—shows the ICD-10 and ICD-9 codes that can be mapped automatically • Other Mappings—ICD-9 codes for which there is more than one mapping available

| Cr | eate ICD-10 | Codes | | | | | |

NOTE: Mappings are based on CMS General Equivalency Maps (GEMs).

2. Select the 1:1 Mappings tab.

3. Select the check boxes on the left for the items to see the ICD-10 codes that are suggested.

• You can change the ICD-10 in the New Code field.

• The blue icon will display for ICD-10 codes in your diagnosis list that already exist, but are not mapped to an ICD-9.

NOTE: For instances where multiple ICD-9s can map to a single ICD-10, Medisoft v19 will autoappend these when they are created. For example, ICD-10 code "I10," when mapped to two different ICD-9s, will result in code "I10" and code "I10a."

For our example, we have chosen ICD-9 code 847.2 (back spasm).

| Select / De-S | elect All Create | Selected Code Close | | | | | d | |

6. Select the check boxes in the bottom grid for the potential codes you want to map. All will be checked by default.

7. When you are done selecting codes on the tabs, click Create Selected Codes. This will create the ICD-10 codes and the mappings.

Helpful Hint: Be sure to update any paper chart you are keeping on which codes you have updated.
